

## Oakland Running Festival UPDATE

3/10/20 4:00 PM PT

This afternoon the Alameda County Health Department issued new guidance related to large community events to reduce community transmission of COVID-19 and slow and decrease the spread of the virus. As a result, the 2020 Oakland Running Festival will not take place on March 22.

We know many of you have trained and made sacrifices for months in anticipation of a great personal accomplishment. We regret we are unable to host our amazing event, and hope you understand this decision was beyond the control of Corrigan Sports Enterprises (CSE). This is an unprecedented global public health issue and we must do our part to act responsibly and protect our runners, volunteers, fans, sponsors and staff.

CSE staff will meet tomorrow morning to review next steps and options. We will provide more information immediately after all possibilities are explored and more definitive decisions are made.
